I am seeking opportunities to apply knowledge and skills in a professional setting. Eager to contribute to innovative projects and gain practical experience to further develop abilities in the field.

## EDUCATION

### Bachelor of Technology Birla Institute of Technology

2020 - Present

Mesra, India

### Higher Secondary (I.S.C) De Nobili School C.M.R.I

2020

Dhanbad, India

### Senior School (I.C.S.E) De Nobili School C.M.R.I

2018

Dhanbad, India

## MY PROJECTS

### MY PERSONAL PORTFOLIO | 3D Website with threeJS and React Three Fiber

- Built interactive 3d models and applied animations using geometry.
- Technologies used -> ThreeJS and React Three Fiber, Framer Motion, TailwindCSS, Employed industry-standard best practices like Higher Order Components (HOCs) to ensure code reusability and maintainability. Built an interactive form that allows you to send me emails directly from the website

### SHIRTOPIA | ThreeJS 3D product website

- Our revolutionary 3D customization tool empowers you to unleash your imagination and craft your one-of-a-kind shirt.
- Technologies used -> HTML, CSS, Javascript, threeJS in React, Framer Motion, Valtio, Tailwind CSS, Rapid API.
- Customize the shirt's colour, upload your logo or ask the AI to do it for you! You get the option of removing the logo or designing it as you want

### Puppy Prowl | 2D Game - HTML(HTML5 canva), CSS, and JavaScript

- The game utilizes the HTML5 canvas element for rendering graphics and providing an interactive gaming experience. The game mechanics and functionality were implemented using vanilla JavaScript.
- Comes with a "Toggle fullscreen" button in the game interface to switch to full-screen mode for an immersive experience
- The combination of graphics, player controls, collision detection, and scoring system provides an entertaining and challenging gameplay experience for players.

### Briefsome -GPT AI Website with React

- Experience hassle-free reading with Briefsome, an open-source article summarizer that condenses lengthy articles into concise summaries.
- Technologies used-> HTML, CSS framework-Tailwind Css, ReactJs with Vite, Javascript, API integration with RapidApi, Redux Toolkit for state management.

## MY TECH TOOLKIT

C++

Java

HTML

CSS

JAVASRIPT

PYTHON

SQL

REACT

NextJS

MongoDB

MySQL

ThreeJS

Git

TailwindCSS

BootStrap

RapidAPI

Firebase

Figma

Redux

Vite

## COURSES & CERTIFICATES

The Complete 2023 Web Development Bootcamp

Complete Web & Mobile Designer in 2023: UI/UX, Figma

The Complete SQL and MySQL Course - From Beginner to Expert

Mastering Data Structures & Algorithms using C and C+

Learn Ethical Hacking From Scratch

Learn Advanced C++ Programming

## AVOCATIONS

Video Editing

Content Creation

ChatGPT Prompt Creator

Photoshop

Motorcycle Enthusiast
